

## TECHNICAL INFORMATION

FOR PROFESSIONAL USE ONLY

### EXTRA CUT POLISHING PAD

#### PRODUCT DESCRIPTION

Professional polishing pad made of Australian woven wool combined with an open-cell foam. Characterized by its strong cutting force. Intended for the first stage of polishing, removing defects and refreshing hard, fully polymerized clearcoats. For use with rotary machines.

**Product advantages:**

- speeds up the polishing process
- reduces the consumption of polishing compound
- maintains an even pressure on the entire surface in contact with the applicator
- easy to work with - reduces vibrations due to good flexibility

**Size:** Ø 140 mm

**Fastening:** velcro

**Works perfectly with polishing compounds:**

BRAYT T1 STRONG

BRAYT ONE STEP PREMIUM

BRAYT ONE STEP

BRAYT T11

#### CLEANING METHOD

It's recommended to clean product mechanically. Pad can be also wash by hand without the use the softeners. Softeners cause to loss of his properties.
