USAGE

- In case of hard, scratch resistant lacquers it is recommended to use polishing wool or hard polishing sponge.
- Apply small amount of the i01 HIGH GLOSS on the surface to be treated. For new polishing pad it is recommended to apply product also on pad and make pre-polishing.
- Polish using polisher with optimal speed 800 – 1600 RPM and medium pressure (depending on the surface).
- Polish until all imperfections have been removed.
- After polishing remove any residue by clean microfiber cloth.
- In case of polishing on big surfaces work a small area at time.

ZALECANE APLIKATORY

BRAYT polishing foam „PROFI” white
BRAYT polishing wool TYPE „D” yellow
BRAYT polishing wool TYPE „MM” white

STORAGE

Product works best when its temperature is 15 – 25°C.

Storage in sealed container at 0 – 45°C.

WARRANTY PERIOD

24 months from production date.

All information are based upon the precise laboratory studies and many years of experience. The good market position does not release us from the constant supervision of our products quality. However we are not responsible for the final effects of the improper storage or application of our products, as well as for work inconsistent with the good craft practice.
