

TECHNICAL INFORMATION

FOR PROFESSIONAL USE ONLY

UBS ANTI GRAVEL

SPRAY

PRODUCT DESCRIPTION

Product based on synthetic resins designed to protect car bodies against the harmful effect of the weather conditions, fuel, oil, water and salt. Product creates a strong, flexible anti-gravel layer with soundproofing and anticorrosive properties. Can be coated with any lacquer systems. Doesn't contains bitumen.

PHYSICAL AND CHEMICAL PROPERTIES

COLOUR:	black, white, grey
CAPACITY:	500 ml
GLOSS GRADE:	mat
DRYING TIME IN 20°C*:	
• dust dry	after approx. 30 min.
• tack free	after approx. 60 min.
• re-sprayable	after approx. 2 hours

*drying time depends on the temperature, humidity and thickness of the coating.

VOLATILE ORGANIC COMPOUNDS

VOC = 579 [g/l].

The product fulfils the requirements of the European Directive (2004/42/WE), which defines the volatile components content for that products category (cat. B/5) at the level of 840[g/l] for the ready product.

SUBSTRATES AND PREPARATION

The product shows very good adhesion to the following substrates:

- polyester laminates
- polyester putties
- epoxy primers
- two-component acryl fillers
- steel substrates,
- steel rustless surfaces
- aluminium substrate,
- plastic materials
- wash primer

Polyester laminates should be degreased, dry ground (P80-P120) and degreased again.

Polyester putty should be degreased, dry ground (P120).

Stainless material should be degreased.

Steel surface should be degreased, dry ground (P80 – P120) and degreased again.

Aluminium and galvanized surface should be degreased, dulled with the abrasive cloth and degreased again.

Old coatings should be degreased, dry ground (P220 – P280) and degreased again.

Plastic surface should be clean by water and detergent, dulled with the abrasive cloth and degreased again. We recommend warming the plastic element to temperature of 500°C, which facilitates the removal of any silicone from the surface.

USAGE

- Best temperature for application 15-25 °C.
- Shake the bottle before use 2 min and try spray on cardboard first.
- Spray the surface from a distance of about 25-30 cm. Apply 2-3 layers of the agent on time 2-5 minutes. Before another layer shake the bottle.
- **Clean the spray nozzle after use!** – Holding the can with the valve pointing downward, press the button emptying the content for about 5 seconds.

In case of direct application on steel surface recommended imposition of the top layer of lacquer or enamel.

Caution: To maintain safety, always follow the instructions given in the Safety Data Sheet for the given product.

STORAGE

Store the product components in a sealed container, in dry and cool places, away from fire and heat sources, as well as direct sunlight.

WARRANTY PERIOD

MF UBS ANTI GRAVEL

- 5 years from the date of production
