HI HEAT BLACK acryl

EC	22/01/2023 Date of compilation: 24/05/2018 Revised: 16/08/2022 Version: 3 (Replaced 2) TION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING						
.1	Product identifier: HI HEAT BLACK acryl						
	Other means of identification:						
-	UFI: 0DM1-33P3-R00T-WJ3W						
.2	Relevant identified uses of the substance or mixture and uses advised against:						
	Relevant uses: Car repair; spray paint. For professional users only.						
.3	Uses advised against: All uses not specified in this section or in section 7.3 Details of the supplier of the safety data sheet:						
	Troton Sp. z o.o.						
	Ząbrowo 14A						
	78-120 Gościno - Zachodniopomorskie - Polska Phone: +48 94 35 123 94 - Fax: +48 94 35 126 22						
	troton@troton.com.pl						
.4	www.troton.pl / www.troton.eu Emergency telephone number: (8am-4pm)+48 094 35 123 94; 112						
FC	TION 2: HAZARDS IDENTIFICATION						
2.1	Classification of the substance or mixture:						
	CLP Regulation (EC) No 1272/2008:						
	Classification of this product has been carried out in accordance with CLP Regulation (EC) No 1272/2008.						
	Aerosol 1: Pressurised container: May burst if heated., H229						
	Aerosol 1: Flammable aerosols, Category 1, H222 Aquatic Chronic 2: Hazardous to the aquatic environment, long-term hazard, Category 2, H411						
	Eye Irrit. 2: Eye irritation, Category 2, H319						
	Skin Irrit. 2: Skin irritation, Category 2, H315 STOT SE 3: Specific toxicity causing drowsiness and dizziness, single exposure, Category 3, H336						
.2	Label elements:						
	CLP Regulation (EC) No 1272/2008:						
	Danger						
	Hazard statements:						
	Aerosol 1: H229 - Pressurised container: May burst if heated.						
	Aerosol 1: H222 - Extremely flammable aerosol. Aquatic Chronic 2: H411 - Toxic to aquatic life with long lasting effects.						
	Eye Irrit. 2: H319 - Causes serious eye irritation.						
	Skin Irrit. 2: H315 - Causes skin irritation. STOT SE 3: H336 - May cause drowsiness or dizziness.						
	Precautionary statements:						
	P210: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.						
	P211: Do not spray on an open flame or other ignition source. P251: Do not pierce or burn, even after use.						
	P280: Wear protective gloves/protective clothing/respiratory protection/eye protection/protective footwear.						
	P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing. P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy t						
	do. Continue rinsing.						
	P410+P412: Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122°F						
	P501: Dispose of contents/container in accordance with regulations on hazardous waste or packaging and packaging waste respectively.						
	Substances that contribute to the classification						
	Hydrocarbons, C6-C7, n-alkanes, isoalkanes, cyclics, <5% n-hexane; Hydrocarbons, C9, aromatics; Hydrocarbons, C6-C7, isoalkanes, cyclics, <5% n-hexane						

-			te of compilation: 24/	-	ed: 16/08/2022	Version: 3 (Rep	,

⁽²⁾ Voluntarily-listed substance failing to meet any of the criteria set out in Regulation (EU) No. 2020/878

To obtain more information on the hazards of the substances consult sections 11, 12 and 16.

** Changes with regards to the previous version

SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures:

HI HEAT BLACK acryl

Printing:	20/01/2023	Date of compilation: 24/05/2018	Revised: 16/08/2022	Version: 3 (Replaced 2)					
SECT	TON 4: FIRST	AID MEASURES (continued)							
	The symptoms resulting from intoxication can appear after exposure, therefore, in case of doubt, seek medical attention for direct exposure to the chemical product or persistent discomfort, showing the SDS of this product. By inhalation:								
	Remove the person affected from the area of exposure, provide with fresh air and keep at rest. In serious cases such as cardiorespiratory failure, artificial resuscitation techniques will be necessary (mouth to mouth resuscitation, cardiac massage, oxygen supply, etc.) requiring immediate medical assistance. By skin contact:								
	Remove contaminated clothing and footwear, rinse skin or shower the person affected if appropriate with plenty of cold w and neutral soap. In serious cases see a doctor. If the product causes burns or freezing, clothing should not be removed a could worsen the injury caused if it is stuck to the skin. If blisters form on the skin, these should never be burst as this w increase the risk of infection.								
	By eye contac	t:							
	unless they are	stuck to the eyes, in which case remova quickly as possible with the SDS for the	I could cause further damage	contact lenses, these should be removed e. In all cases, after cleaning, a doctor should					
	out the mouth	and throat, as they may have been affec	ted during ingestion.	n. Keep the person affected at rest. Rinse					
4.2	-	nt symptoms and effects, both acut	-						
		yed effects are indicated in sections 2 an							
4.3		any immediate medical attention ar	id special treatment need	ed:					
	Non-applicable								
CECT		GHTING MEASURES							
SECT	ION 5. FIREFI	GHTING MEASURES							
5.1	Extinguishing	media:							
	Suitable extin	guishing media:							
	If possible use p	oolyvalent powder fire extinguishers (ABC	C powder), alternatively use f	oam or carbon dioxide extinguishers (CO2).					
	Unsuitable ext	tinguishing media:							
	IT IS RECOMME	NDED NOT to use full jet water as an ex	tinguishing agent.						

5.2 Special hazards arising from the substance or mixture:

As a result of combustion or thermal decomposition reactive sub-products are created that can become highly toxic and,

consequently, can present a serious health risk.

5.3 Advice for firefighters:

Depending on the magnitude of the fire it may be necessary to use full protective clothing and self-contained breathing apparatus (SCBA). Minimum emergency facilities and equipment should be available (fire blankets, portable first aid kit,...) in accordance with Directive 89/654/EC.

Additional provisions:

Act in accordance with the Internal Emergency Plan and the Information Sheets on actions to take after an accident or other emergencies. Eliminate all sources of ignition. In case of fire, cool the storage containers and tanks for products susceptible to combustion, explosion or BLEVE as a result of high temperatures. Avoid spillage of the products used to extinguish the fire into an aqueous medium.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures:

For non-emergency personnel:

Isolate leaks provided that there is no additional risk for the people performing this task. Evacuate the area and keep out those without protection. Personal protection equipment must be used against potential contact with the spilt product (See section 8). Above all prevent the formation of any vapour-air flammable mixtures, through either ventilation or the use of an inert medium. Remove any source of ignition. Eliminate electrostatic charges by interconnecting all the conductive surfaces on which static electricity could form, and also ensuring that all surfaces are connected to the ground.

For emergency responders:

Safety data sheet

HI HEAT BLACK acryl

Printing:	20/01/2023	Date of compilation: 24/05/2018	Revised: 16/08/2022	Version: 3 (Replaced 2)			
SECT	Ton 6: Accidei	NTAL RELEASE MEASURES (conti	nued)				
	Wear protective e	equipment. Keep unprotected persons a	way. See section 8.				
6.2	5.2 Environmental precautions:						
6.3	 Avoid at all cost any type of spillage into an aqueous medium. Contain the product absorbed appropriately in hermetically sealed containers. Notify the relevant authority in case of exposure to the general public or the environment. Methods and material for containment and cleaning up: 						
	It is recommended:						
6.4	Absorb the spillage using sand or inert absorbent and move it to a safe place. Do not absorb in sawdust or other combustible absorbents. For any concern related to disposal consult section 13. 6.4 Reference to other sections:						
	See sections 8 an	ıd 13.					
SECT	ION 7: HANDLI	NG AND STORAGE					
7.1	Precautions for	safe handling:					
	A General preca	autions for safe use					
	spills and resident cleanliness where the spills and resident the spills and r	dues, destroying them with safe methomere dangerous products are used.	ds (section 6). Avoid leakages	ep containers hermetically sealed. Control from the container. Maintain order and			
		ommendations for the prevention of fire		ould form flammable vapour/air mixtures in			
	the presence		f ignition (mobile phones, spa	rks,) and transfer at slow speeds to avoid			

C.- Technical recommendations on general occupational hygiene

Do not eat or drink during the process, washing hands afterwards with suitable cleaning products.

D.- Technical recommendations to prevent environmental risks

Due to the danger of this product for the environment it is recommended to use it within an area containing contamination control barriers in case of spillage, as well as having absorbent material in close proximity.

7.2 Conditions for safe storage, including any incompatibilities:

A.- Technical measures for storage

Maximum Temp.: 25 °C

B.- General conditions for storage

Avoid sources of heat, radiation, static electricity and contact with food. For additional information see subsection 10.5

7.3 Specific end use(s):

Except for the instructions already specified it is not necessary to provide any special recommendation regarding the uses of this product.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters:

Substances whose occupational exposure limits have to be monitored in the workplace (European OEL, not country-specific legislation):

Directive (EU) 2000/39, Directive 2004/37/EC, Directive (EU) 2006/15, Directive (EU) 2009/161, Directive (EU) 2017/164, Directive (EU) 2019/1831:

Refraction inde	x:	Non-applicable *	
*Not relevant due	to the nature of the product, not providing info	rmation property of its hazards.	

SECTION 10: STABILITY AND REACTIVITY

10.1 Reactivity:

No hazardous reactions are expected because the product is stable under recommended storage conditions. See section 7.

10.2 Chemical stability:

Chemically stable under the indicated conditions of storage, handling and use.

10.3 Possibility of hazardous reactions:

Under the specified conditions, hazardous reactions that lead to excessive temperatures or pressure are not expected.

10.4 Conditions to avoid:

Applicable for handling and storage at room temperature:

Shock and friction	Contact with air	Increase in temperature	Sunlight	Humidity
Not applicable	Not applicable	Risk of combustion	Avoid direct impact	Not applicable

10.5 Incompatible materials:

Acids	Water	Oxidising materials	Combustible materials	Others
Avoid strong acids	Not applicable	Avoid direct impact	Not applicable	Avoid alkalis or strong bases

10.6 Hazardous decomposition products:

See subsection 10.3, 10.4 and 10.5 to find out the specific decomposition products. Depending on the decomposition conditions, complex mixtures of chemical substances can be released: carbon dioxide (CO₂), carbon monoxide and other organic compounds.

SECTION 11: TOXICOLOGICAL INFORMATION **

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008:

The experimental information related to the toxicological properties of the product itself is not available

Dangerous health implications:

In case of exposure that is repetitive, prolonged or at concentrations higher than the recommended occupational exposure limits, adverse effects on health may result, depending on the means of exposure:

- A- Ingestion (acute effect):
 - Acute toxicity : Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for consumption. For more information see section 3
 - Corrosivity/Irritability: The consumption of a considerable dose can cause irritation in the throat, abdominal pain, nausea and vomiting.
- B- Inhalation (acute effect):
 - Acute toxicity : Based on available data, the classification criteria are not met. However, it contains substances classified as hazardous for inhalation. For more information see section 3.
 - Corrosivity/Irritability: Based on available data, the classification criteria are not met. However, it contains substances classified as hazardous for inhalation. For more information see section 3.
- C- Contact with the skin and the eyes (acute effect):

Not described

** Changes with regards to the previous version

SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods:

Code	Description	Waste class (Regulation (EU) No 1357/2014)
16 05 04*	gases in pressure containers (including halons) containing hazardous substances	Dangerous

Type of waste (Regulation (EU) No 1357/2014):

HP14 Ecotoxic, HP3 Flammable, HP5 Specific Target Organ Toxicity (STOT)/Aspiration Toxicity, HP4 Irritant — skin irritation and eye damage

Waste management (disposal and evaluation):

Consult the authorized waste service manager on the assessment and disposal operations in accordance with Annex 1 and Annex 2 (Directive 2008/98/EC). As under 15 01 (2014/955/EC) of the code and in case the container has been in direct contact with the product, it will be processed the same way as the actual product. Otherwise, it will be processed as non-dangerous residue. Waste should not be disposed of to drains. See paragraph 6.2.

Regulations related to waste management:

In accordance with Annex II of Regulation (EC) No 1907/2006 (REACH) the community or state provisions related to waste management are stated

Community legislation: Directive 2008/98/EC, 2014/955/EU, Regulation (EU) No 1357/2014

SECTION 15: REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:

Candidate substances for authorisation under the Regulation (EC) No 1907/2006 (REACH): Non-applicable

Substances included in Annex XIV of REACH ("Authorisation List") and sunset date: Non-applicable

Regulation (EC) No 1005/2009, about substances that deplete the ozone layer: Non-applicable

Article 95, REGULATION (EU) No 528/2012: Non-applicable

REGULATION (EU) No 649/2012, in relation to the import and export of hazardous chemical products: Non-applicable

Seveso III:

Description	Lower-tier requirements	Upper-tier requirements
MMABLE AEROSOLS	150	500
IRONMENTAL HAZARDS	200	500
	ABLE AEROSOLS DNMENTAL HAZARDS	ABLE AEROSOLS 150 DNMENTAL HAZARDS 200

Limitations to commercialisation and the use of certain dangerous substances and mixtures (Annex XVII REACH, etc):

Shall not be used in:

—ornamental articles intended to produce light or colour effects by means of different phases, for example in ornamental lamps and ashtrays,

tricks and jokes,

-games for one or more participants, or any article intended to be used as such, even with ornamental aspects.

Specific provisions in terms of protecting people or the environment:

It is recommended to use the information included in this safety data sheet as a basis for conducting workplace-specific risk assessments in order to establish the necessary risk prevention measures for the handling, use, storage and disposal of this product.

SECTION 15: REGULATORY INFORMATION (continued)

Other legislation:

The product could be affected by sectorial legislation

Council Directive 75/324/EEC of 20 May 1975 on the approximation of the laws of the Member States relating to aerosol dispensers

Commission Directive 94/1/EC of 6 January 1994 adapting some technicalities of Council Directive 75/324/EEC on the approximation of the laws of the relating Member States to aerosol dispensers

Commission Directive 2008/47/EC of 8 April 2008 amending, for the purposes of adapting to technical progress, Council Directive 75/324/EEC on the approximation of the laws of the Member States relating to aerosol dispensers

Commission Directive 2013/10/EU of 19 March 2013 amending Council Directive 75/324/EEC on the approximation of the laws of the Member States relating to aerosol dispensers in order to adapt its labelling provisions to Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures

COMMISSION DIRECTIVE (EU) 2016/2037 of 21 November 2016 amending Council Directive 75/324/EEC as regards the maximum allowable pressure of aerosol dispensers and to adapt its labelling provisions to Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures

15.2 Chemical safety assessment:

The supplier has not carried out evaluation of chemical safety.

SECTION 16: OTHER INFORMATION

Legislation related to safety data sheets:

The SDS shall be supplied in an official language of the country where the product is placed on the market. This safety data sheet has been designed in accordance with ANNEX II-Guide to the compilation of safety data sheets of Regulation (EC) No 1907/2006 (COMMISSION REGULATION (EU) 2020/878).

Modifications related to the previous Safety Data Sheet which concerns the ways of managing risks.:

COMMISSION REGULATION (EU) 2020/878

COMPOSITION/INFORMATION ON INGREDIENTS (SECTION 3, SECTION 11, SECTION 12):

New declared substances

Butane (106-97-8) Isobutane (75-28-5) Propane (74-98-6)

Texts of the legislative phrases mentioned in section 2:

H315: Causes skin irritation.

H336: May cause drowsiness or dizziness.

H411: Toxic to aquatic life with long lasting effects.

H229: Pressurised container: May burst if heated.

H222: Extremely flammable aerosol.

H319: Causes serious eye irritation.

Texts of the legislative phrases mentioned in section 3:

The phrases indicated do not refer to the product itself; they are present merely for informative purposes and refer to the individual components which appear in section 3

CLP Regulation (EC) No 1272/2008:

Acute Tox. 4: H312+H332 - Harmful in contact with skin or if inhaled.

Acute Tox. 4: H332 - Harmful if inhaled.

Aquatic Chronic 2: H411 - Toxic to aquatic life with long lasting effects.

Aquatic Chronic 3: H412 - Harmful to aquatic life with long lasting effects.

Asp. Tox. 1: H304 - May be fatal if swallowed and enters airways.

Eye Dam. 1: H318 - Causes serious eye damage.

Flam. Gas 1A: H220 - Extremely flammable gas.

Flam. Liq. 2: H225 - Highly flammable liquid and vapour. Flam. Liq. 3: H226 - Flammable liquid and vapour.

Press. Gas: H280 - Contains gas under pressure, may explode if heated.

Skin Irrit. 2: H315 - Causes skin irritation.

STOT RE 2: H373 - May cause damage to organs through prolonged or repeated exposure (Inhalation).

STOT SE 3: H335 - May cause respiratory irritation.
