

## TECHNICAL INFORMATION

### addsTROTON POLYURETHANE FOAM

#### PRODUCT DESCRIPTION

Polyurethane foam designed for masking door cavities, engine cover, car trunk cover and to masking the borders of painting elements. Flexible and easy to use, very well sticking to the uneven surfaces, filling the empty space. Resistance to impacts, temperature and weather conditions. Product has good insulating properties, reduces vibrations and noise.

#### TECHNICAL DATA

<b>Color</b>	white
<b>Available sizes</b>	13 mm x 20 mb , 13 mm x 50 mb
<b>Density</b>	24-27 kg/m <sup>3</sup>
<b>Rigidity 50%</b>	750+/- 15 hPa
<b>Plastic strain</b>	< 60 %
<b>Tensile strength</b>	>700 hPa
<b>Elongation at break</b>	>100%
<b>Resistance to aging</b>	>40 %

#### STORAGE

Keep out of direct sunlight and from heat sources.

#### EXPIRY DATE

24 months from production date.
