

## TECHNICAL INFORMATION

### INTERFACE PAD

Interface pad made of open-cell foam and high quality velour. Specially designed structure and holes provide increased durability and long life. Pad is also characterized by high resistance to temperature variations.

**INTERFACE PAD PREMIUM / HARD** (white) – precision grinding with abrasives paper of various grit.

**INTERFACE PAD / MEDIUM HARD** (yellow) - designed for preliminary work, perfect for contours and curves.

**INTERFACE PAD / SOFT** (black) - for finishing work, ideal for corners and kinks of surface.

**Size:** Ø 150 mm x 10mm

**WARNING:** During work wear safety glasses.
