

## TECHNICAL INFORMATION

FOR PROFESSIONAL USE ONLY

### *adds***TROTON** POLISHING FOAM WITH VELCRO white

#### PRODUCT DESCRIPTION

Polishing foam designed for efficient polishing of painted coatings. Suitable for work with rotary and orbital machines. Can be used with first and second step polishing compounds (from cut to polishing type), wet and dry. Recommended speed range 300 – 2500 rpm. Product show resistance to aqueous environment, organic solvents, and prolonged exposure to high temperatures (up to 110<sup>0</sup>C).

#### TECHNICAL INFORMATION

- |                     |                                    |
|---------------------|------------------------------------|
| • Color:            | white                              |
| • Dimensions:       | diameter: 150 mm, thickness: 50 mm |
| • Velcro:           | diameter: 125 mm                   |
| • Density:          | 36 - 40 kg / m <sup>3</sup>        |
| • Hardness 40%:     | 6,5 – 9,5 kPa                      |
| • Elongation:       | 90 %                               |
| • Tensile strength: | 190 kPa                            |
| • Celldiameter:     | 475 – 665 microns                  |

#### STORAGE

Store at temperatures between -3°C to + 40°C and a humidity of 25% to 65%.
