WAFFER POLISHING FOAM
WITH VELCRO
white

PRODUCT DESCRIPTION

Polishing foam designed for efficient polishing of painted coatings. Suitable for work with rotary and orbital machines. Can be used with first and second step polishing compounds (from cut to polishing type), wet and dry. Specific shape minimizes holograms. For using the features of this product effectively we recommended to work with less downforce for preventing flattening of the work surface. Recommended speed range 300 – 2500 rpm. Product show resistance to aqueous environment, organic solvents, and prolonged exposure to high temperatures (up to 110⁰C).
