

TROTON

NANO CERAMIC COATING MATT

PRESERVES THE MATTE FINISH

NO GLOSS
NO COMPROMISES

ENHANCES COLOR DEPTH

IMPROVED APPEARANCE
WITHOUT ALTERING THE FINISH

PROTECTION UP TO 24 MONTHS

LONG-LASTING
SURFACE PROTECTION

360° PROTECTION

UV | CHEMICALS | ROAD SALT
CONTAMINANTS

ADVANCED HYDROPHOBIC PROPERTIES

LESS DIRT ADHESION
EASIER CLEANING

EASY APPLICATION

PROFESSIONAL RESULTS
WITH MINIMAL EFFORT

INCREASED SCRATCH RESISTANCE

PROTECTIVE LAYER
WITH HARDNESS UP TO 8H

Matt paint looks exceptional. But it is far more demanding than traditional high gloss finishes. Its micro-texture makes it more susceptible to micro-scratches, quicker to accumulate dirt, and impossible to polish. Every imperfection remains visible.

PROTECTION ENGINEERED SPECIFICALLY FOR MATT FINISHES

Nano Ceramic Coating Matt is an advanced protective coating developed specifically for matt and satin surfaces.

It forms an invisible protective layer that:

PROTECTS THE SURFACE

PRESERVES THE ORIGINAL APPEARANCE OF THE PAINT

DOES NOT ALTER THE MATTE FINISH

Art. no.: 300011063

TROTON

MATT PROTECT SYSTEM

PERFECT MATT FINISH
AND DURABLE PROTECTION

MATT 2:1 ACRYLIC CLEARCOAT

- superior matt finish
- durable and resistant coating
- consistent matt level
- high weather resistance
- easy application

NANO CERAMIC COATING MATT FOR MATT PAINT AND PPF

- dedicated 360° matt protection
- preserves the original matt effect
- enhanced wear resistance
- advanced hydrophobic performance
- easy application

Matt finishes stand out for their unique appearance, but they are much more demanding than traditional gloss finishes. Their structure makes them more susceptible to everyday wear, more prone to contamination, and impossible to polish in the event of damage. Therefore, it is crucial to ensure not only a perfectly matt finish, but also effective and long-lasting protection that preserves the flawless matt effect over time.

The application of the Troton Matt 2:1 clearcoat and the dedicated Troton Nano Ceramic Coating Matt ensures a perfectly matt finish and additional, durable surface protection.

PRESERVE THE MATT EFFECT FOR LONGER!
