POLISHING COMPOUND

ONE STEP PREMIUM

- Removes P1500 sanding traces.
- Very economical in use.
- Can work with all types of polishing machines.
- Can work with all types of polishing pads.
- Suitable for all types of coating.
- Does not contain fillers.
- Applicable on both fresh and fully polymerized paints.
- Easy to use.
- For machine or manual processing.
- Perfect for manual processing on hard to reach places.

Processing: manual work, mechanical work (rotary, orbital).

Polishing pads: hard polishing foam (yellow), soft polishing foam (grey), yellow lambswool, white lambswool, orange peel removal pads: „jeans“, „corduroy“.

POLISHING COMPOUND

ONE STEP

- Removes P2000 sanding traces.
- Works with all types of polishing pads.
- Suitable for all types of coating.
- Does not contain fillers.
- Applicable on both fresh and fully polymerized paints.
- Easy to use.
- For machine or manual processing.
- Perfect for manual processing on hard to reach places.

Processing: manual work, mechanical work (rotary, orbital).

Polishing pads: hard polishing foam (yellow), soft polishing foam (grey), lambswool yellow, lambswool white, orange peel removal pads: „jeans“, „corduroy“.

POLISHING COMPOUND

T1 EXTRA CUT

- Features high cutting power.
- Quickly removes P1500 sanding traces.
- Very economical in use.
- Does not contain silicone or fillers.
- Suitable for use on fresh and fully polymerized paints.
- Easy to use.
- For machine or manual processing.

Processing: manual work, mechanical work (rotary).

Polishing pads: hard polishing foam (yellow), lambswool yellow, lambswool white, orange peel removal pad "jeans".

POLISHING COMPOUND

T1 STRONG

- Removes P1500 sanding traces.
- Works with all types of polishing pads.
- Suitable for all types of coating.
- Does not contain fillers.
- Applicable on both fresh and fully polymerized paints.
- Easy to use.
- For machine or manual processing.

Processing: manual work, mechanical work (rotary).

Polishing pads: hard polishing foam (yellow), lambswool yellow, lambswool white, orange peel removal pad "jeans".

POLISHING COMPOUND

T11

- Removes P1500 grit sanding traces.
- Suitable for all types of coating.
- Applicable on both fresh and fully polymerized paints.
- For machine or manual processing.
- The best results are obtained with polishing wool or hard polishing foam.

Processing: manual work, mechanical work (rotary).

Polishing pads: hard polishing foam (yellow), soft polishing foam (grey), lambswool yellow, lambswool white, orange peel removal pad "jeans".

ANTIHOLOGRAM & MICROSCRATCH REMOVER

T2

- Designed to remove holograms, swirls and micro scratches on painted surface.
- Suitable also to eliminate traces after polishing.
- Guarantees the ideal colour depth and gloss.
- Creates a protective layer resistant to detergents.
- Does not contain silicone.

Processing: manual and machine work (rotary, orbital).

Polishing pads: soft polishing foam (grey), polishing foam finish (black), orange peel removal pad "corduroy".

Unit amount Art. no.

100 g x 12 pcs display 11735

QUICK WAX & SHINE

T3

Unit amount Art. no.

500 ml 12152

11 12153

- Wax based product designed to be used on every smooth and glossy surface (lacquered surfaces, glass surfaces and plastics)
- Offers protective and conditioning properties that refresh the painted surface enhancing the colour depth and gloss.
- Creates a protective hydrophobic film that repels water.
- Does not leave traces on plastic and rubber.
- Suitable for hand and machine work

Processing: manual and machine work.

Polishing pads: polishing foam finish (black).

PROTECT LIQUID

T4

Unit amount Art. no.

250 ml 300005446

500 ml 300005447

11 300005448

- Protective action for minimum 6 months.
- Can be used on all types of coating.
- Water based product.
- Easy to use.
- For machine or manual processing.
- Contains UV filters.

Processing: manual work, mechanical work (orbital).

Polishing pads: polishing foam finish (black).

REGENERATION

R1

- Product intended to restore and refresh plastic surfaces.
- Suitable also to use on metal (chrome, brass, stainless steel, aluminium) and painted or varnished surfaces.
- Agent has a strong penetrating ability that restores lost color and luster.
- After drying creates flexible and resistant finishing coating.

Unit amount Art. no.

250 ml 300007597

CLEANING LIQUID

UNIVERSAL CLEANER

- Designed to be used on all types of paints, varnishes (including hs, 2K, nitro, synthetic) and plastics, gel coats, glass and mirrors.
- Effectively removes mold and residue of abrasive and protective compounds (wax, silicones).
- Universal cleaner allows for a better evaluation of the achieved results and gloss level.
- Very easy to use (for manual application).

Unit amount Art. no.

500 ml 11849

SET

HEADLIGHT RESTORATION KIT

Set of products to refresh tarnished headlight as well as regenerate damaged protective layer. Suitable for machine and hand application. Mainly dedicated to headlights made of plastics.

Set consists of:

- Brayt T11 Polishing compound 150 g
- Brayt T4 Protect liquid 50 ml

Art. no. **300006686**

SET

HEADLIGHT RESTORATION KIT COMPLETE

- The set is designed for renovation of headlights.
- Protects the reflector from external factors for a period of 6 months.
- Includes UV filters.
- Can be polished by hand or by machine.

Set consists of:

- Brayt T11 Polishing compound 150 g
- Brayt T4 Protect liquid 50 ml
- Adds TROTON masking type 38 mm x 50 m
- Brayt Backing plate Ø 75 mm (3"), M14 or 5/8" (screw)
- Adaptor M14 / Impact drill (reduction) or
- Adaptor 5/8" / Impact drill (reduction)
- Brayt Lambswool Ø 80 mm white
- Brayt Microfiber cloth 40 x 40 cm red and grey

Art. no. **300008348**

SET

START - SET STRONG

Set consists of:

- Brayt T1 Strong Polishing compound 250 g
- Brayt T2 Antihologram & Microscratch Remover 250 g
- Brayt T3 Quick Wax&Shine 500 ml
- Brayt T4 Protect liquid 250 ml
- + 2 pcs microfibre cloths free of charge!

Art. no. **10321**

CAR COSMETICS

CAR SHAMPOO

Unit amount Art. no.

500 ml 300010257

Highly concentrated, efficient (1:400) and effective car wash shampoo with neutral pH in its working solution. It is great for removing dirt from the car body, leaving no streaks. Perfect for daily car care. It does not contain waxes or polymers.

- Highly concentrated and very efficient (1:400).
- Safe for all surfaces, including coatings and waxes.
- Effectively removes even heavy dirt.
- Produces long-lasting suds and foam.
- Very easy to rinse.
- No added waxes or polymers.
- Pleasant fruity scent.

Dilution: 1:400; 25 ml of the concentrate per 10 liters of water.

CAR COSMETICS

GLASS CLEANER

Unit amount Art. no.

500 ml 300010258

An effective, efficient and easy to use product that will leave car windows free of streaks and stains. It prevents windows from fogging up and will clean stubborn dirt from any glass surface. Safe for Piano Black finishes.

- Effectively removes even heavy dirt.
- Does not leave streaks or stains.
- Features anti-fogging properties.
- Efficient and easy to use.
- Product evaporates well.
- Pleasant green tea scent.

CAR COSMETICS

INTERIOR Q-DETAILER

Quick Detailer intended for fast cleaning and care of car interior elements made of plastic. Effectively removes dirt, and at the same time refreshes and nourishes plastic, vinyl and rubber, giving them a slight darkening effect. . It prevents the degradation of plastics, protecting them from fading, thanks to its content of UV filters. Creates an antistatic coating.

- Effectively removes dirt.
- Refreshes and nourishes plastic, preventing its degradation.
- Protects from fading.
- Gives a slightly darkening effect.
- Creates an antistatic coating.
- Efficient and easy to use
- Pleasant scent of sandalwood.

Unit amount Art. no.

500 ml 300010256

CAR COSMETICS

IRON REMOVER

An effective and fast-acting formula for cleaning rims from iron fallout, volatile rust and brake dust. When in contact with impurities the product turns red. Due to neutral pH, it is safe for all types of car rims and paint.

- Neutral pH – safe for all types of car rims and paint.
- High cleaning power.
- Easy application.
- Quick rinsing.
- Does not contain corrosive agents.

Unit amount Art. no.

500 ml 300010366

POLISHING FOAM HARD (YELLOW)

Polishing pad made of innovative open-cell polyurethane foam dedicated for polishing and use with first and second step polishing compounds (from cutting to polishing). Perfectly works with Brayt polishing compounds ensuring excellent results when removing large and medium paint defects.

Recommended for use with Brayt polishing compounds: Heavy Cut, T1 Extra Cut, T1 Strong, One Step Premium, One Step, T11.

Size	Art. no.
Ø 170 x 20 mm	300010239
Ø 150 x 25 mm	300009333
Ø 80 x 25 mm	300009334

POLISHING FOAM SOFT (GREY)

Polishing pad made of innovative open-cell polyurethane foam dedicated for removing minor scratches and holograms. Gives surfaces very good finish.

Recommended for use with Brayt polishing compounds: Medium Cut, One Step Premium, One Step, T2 Antihologram&Microscratch Remover.

Size	Art. no.
Ø 170 x 20 mm	300010240
Ø 150 x 25 mm	300009413
Ø 80 x 25 mm	300009414

POLISHING FOAM „FINISH” (BLACK)

Polishing pad made of innovative open-cell polyurethane foam dedicated for finishing, removing holograms as well as applying waxes and protective coatings. Gives surfaces a perfect finish.

Recommended for use with Brayt polishing products: Perfect Finish, T2 Antihologram&Microscratch Remover, T3 Quick Wax&Shine, T4 Protect Liquid.

Size	Art. no.
Ø 170 x 20 mm	300010241
Ø 150 x 25 mm	300010084
Ø 80 x 25 mm	300010085

POLISHING PAD „EXTRA CUT”

Professional polishing pad made of Australian woven wool combined with an open-cell foam. Characterized by its strong cutting force. Intended for the first stage of polishing, removing defects and refreshing hard, fully polymerized clearcoats.

For use with rotary machines.

Size	Art. no.
Ø 140	300010019

PROFESSIONAL POLISHING WOOL

Professional polishing 100% natural wool pad (8 mm length of the nap) based on polyurethane foam. Designed for polishing and finishing using a rotary polisher.

Size	Art. no.
Ø 150	300007652

POLISHING LAMBSWOOL „MM” (WHITE)

Professional polishing head made of 100% natural lambswool. Especially designed to remove defects after abrasive paper, operating dulling etc. Offers best finishing results after P1200 – P1500 abrasives. Features high performance, elasticity and very stable working temperature.

Size	Art. no.
Ø 80	300006473
Ø 150	300005558
Ø 180	300005557

POLISHING LAMBSWOOL „D” (YELLOW)

Professional polishing pad made from 100% natural lambswool. High quality applicator designed to remove defects and refresh very hard surfaces as ceramic lacquer, gel coat, industrial paints cured by UV.

Size	Art. no.
Ø 130	300006472
Ø 150	300005556
Ø 180	300005555

ORANGE PEEL REMOVAL PAD „CORDUROY”

Product designed to eliminate or reduce orange peel effect on surfaces without sanding (comparable to P3000 abrasive paper). Does not cause dulling and fogging. For professional use only with a rotary polisher. To be used with polishing compound.

Size	Art. no.
Ø 135	300006611

ORANGE PEEL REMOVAL PAD „JEANS”

Product designed to eliminate or reduce orange peel effect on surface without sanding (comparable to P2000 abrasive paper). Does not cause dulling and fogging. For professional use only with a rotary polisher. To be used with polishing compound.

Size	Art. no.
Ø 135	300006612

PAINT AND GLASS CLEANING PAD

Cleaning pad designed for cleaning painted surfaces and glass manually or mechanically. Successfully removes stubborn impurities such as resin, traces of insects etc. Safe for all types of automotive and industrial paints.

Size	Art. no.
Ø 150	300006618

PAINT AND GLASS CLAY BAR

Clay bar for cleaning painted coatings and glass. Perfect to remove dirt such as resin, asphalt, paint residues and other impurities difficult to clean. It doesn't scratch and doesn't make the surface matt. Suitable for all automotive and industrial lacquers.

Art. no.
300006617

BATTERY INSPECTION LAMP

5W battery portable lamp which perfectly recreates natural light conditions. Modern LED COB source with very high colour render index RA>95 which is close to the sunlight allows for perfect colour and shade matching of the clear-coat. Facilitates checking the colour against the template and the surface itself.

Thanks to the lamp it is easy to spot the smallest defects of the coating such as stains, holograms and overheating surface.

Checking the colour with the stencil- take off the lens (scattered light).

Checking the surface- with the lens attached.

Art. no.
300008049

BACKING PLATE

- **YELLOW - BLACK UNIVERSAL** – Standard backing plate intended for polishing head with flexible edge.
- **RED SOFT** – Universal backing plate with flexible and soft divider, designed for polishing surfaces with lots of overpress.
- **BACKING PLATE DRILL AND POLISHER**
- **BACKING PLATE RED** – Backing plate with flexible part for free polishing and access to hard-to-reach places. Dedicated to 80 mm BRAYT polishing pads, polishing lambswool and other applicators with Ø 75 mm.
- **BACKING PAD RED THIN** – Backing plate with a flexible, soft part for polishing surfaces with a large number of ribs. Dedicated for all kind of applicators with diameter from 150 mm.
- **BACKING PLATE YELLOW FLEXI** – Ideal for working with BRAYT applicators with Ø 180 mm and high diameter. Thanks to its flexible construction, the applicator is easy to work with and access hard-to-reach areas.

	Size	Art. no.
YELLOW-BLACK UNIVERSAL	Ø 150	300005880
YELLOW-BLACK UNIVERSAL	Ø 120	300005879
RED SOFT	Ø 80	300007933
RED SOFT	Ø 120	300005881
DRILL BANKING PLATE	Ø 50	300006615
POLISHER BANKING PLATE	Ø 50	300006616
PAD RED THIN	Ø 150	300007932
PLATE YELLOW FLEXI	Ø 180	300006474
REDUCTOR from M14 screw	-	300007934

MICROFIBER CLOTHS

- **RED** – recommended for manual polishing.
- **GREY** – perfect for finishing.
- **DARK GREY (yellow hem)** – ideal for window panels.
- **DARK GREY (red hem)** – for general use, suitable for polishing and removal of polishing compound residue.
- **YELLOW** – perfect for waxes.
- **WHITE** – for drying and cleaning all kinds of surfaces.

	Size	Art. no.
RED	40 x 40 cm	300005575
GREY	40 x 40 cm	300005573
WHITE	40 x 60 cm	300007648

POLISHING COMPOUND

HEAVY CUT

Innovative polishing compound with high cutting power, ideal for removing deep scratches and P1500 grit sanding marks. The water-based formula with aluminium oxide provides excellent cutting properties and does not generate a large amount of dust.

- Quickly removes P1500 grit sanding scratches.
- Does not contain fillers, silicone or waxes.
- Suitable for use with rotary and Dual Action machines.
- Applicable on both fresh and fully polymerized paints.

Processing: manual work, mechanical work (rotary, Dual Action)

Polishing pads: hard polishing foam (yellow), yellow lambswool, white lambswool, orange peel removal pads: „jeans“, „corduroy“.

POLISHING COMPOUND

MEDIUM CUT

High-quality polishing compound with medium cutting power. Designed to remove medium scratches and P2000 grit sanding marks. Provides effective removal of imperfections while giving the surface a high gloss finish.

- Removes P2000 grit sanding traces.
- Does not contain fillers, silicone or waxes.
- Suitable for use with rotary and Dual Action machines.
- Applicable on both fresh and fully polymerized paints.

Processing: manual work, mechanical work (rotary, Dual Action)

Polishing pads: soft polishing foam (grey), yellow lambswool, white lambswool, orange peel removal pads: „jeans“, „corduroy“.
